On sunny side of large industrial city.
something underground

tower, fenced area, building

* +5 "have him go to the tower."

High pressure tanks

8-9 foot high fence

no trees

#66 & what else do you see

Trucks, guard post, cement things
by masonry building

benched underground area - tanks or something

#66 go over there, then look back

tower mechanism

big, very large, but not constructed for
height. big disks or wheels or
something - not radio not radar.
environmental room into it - keeps
people warm

cement drain opening in hill side

* +1 "let's move on"
